

PEDL Focus Country List

PEDL priority countries can be found in the table below. Although projects outside this list may be considered where there is a strong justification for the relevance of the research to these countries, please note that priority will be given to applications that address the listed countries.

Within this list, we are particularly interested in generating research in: **Bangladesh, Ethiopia, Kenya, Nepal, Nigeria, Pakistan, Tanzania, Uganda and Zambia.**

We also encourage research in countries where relatively little evidence currently exists. While we can occasionally fund projects in countries with a larger existing body of evidence—such as India—these proposals must demonstrate clear relevance to the priority countries and will face a higher quality threshold.

Angola	Gabon	Nepal
Bangladesh	Gambia, The	Niger
Benin	Ghana	Nigeria
Burkina Faso	Guinea	Pakistan
Burundi	Guinea-Bissau	Rwanda
Cameroon	Haiti	Senegal
Central African Republic	Indonesia	Sierra Leone
Chad	Iraq	Somalia
